## Assessment

This task assessment is to be based on aspects such as:

- Understanding the terms and concepts involved;
- The quality of the research carried out;
- Clarity in partaking the gathered information;
- Participation throughout the different stages of the activity;
- The power of argumentation;
- The justification of opinions;
- The quality of the presentation;
- Meeting timetables and deadlines.

This task assessment can be based on three assessment tools, presented next (Tables 1, 2 and 3). These assessment tools are only a suggestion. Teacher can include other criteria for assessment whenever he/she finds it appropriate for the objectives he/she defined previously.
